Dr. Yves Longtin is an infectious diseases specialist and a medical microbiologist. He is the chair of the Infection Prevention and Control Unit of the Jewish General Hospital (JGH) in Montreal. Dr Longtin's research interests involve numerous aspects of infection control, in particular patient education, hand hygiene, and the diagnosis and prevention of *Clostridium difficile* infections.

Objectives:

- Review the concepts of misinformation, disinformation, deception
- Explore strategies to address misinformation with patients and colleagues
- Apply these concepts to the current COVID-19 pandemic

Speakers:

Yves Longtin

MD, FRCPC

Chair, Infection Prevention and Control Unit
Jewish General Hospital

Associate Professor of Medicine,
McGill University

Moderators:

Sarah Forgie

MD, MEd, FRCPC

President

Association of Medical Microbiology and Infectious Disease (AMMI) Canada

Cheryl Volling

MD, MSc, FRCPC

Medical Specialist

Public Health Agency of Canada

** This activity is eligible for MOC section 1 credits as an unaccredited group learning activity. Please note that unaccredited group learning activities are only eligible for 0.5 credits for every hour of learning, with a maximum of 50 credits per cycle. If you have any questions about how to enter these credits into Mainport, please contact the Royal College Service Centre at cpd@royalcollege.ca **
